tum to Servia, submitted to the Czar for his signature an order for the immediate mobilization of two full army corps.

There has been no expectation here that Austria would approach Servia in the matter of setting the responsibility for the murder of Archduke Francis Ferdinand and his wife on June S, with velvet giove, but no one anticipated the astonishing character of the ultimatum sent by the dual monarchy to the Balkan kingdom and presented to the government of Beigrade.

The interpretation of the note is that Austria desires and intends war, as it is am to Servin, submitted to the Czar for

The interpretation of the note is that Austria desires and intends war, as it is contended no state with the least pretensions to independence would dream of accepting such dictation.

Russia's well known friendship and sympathy with the Servian Slavs (a friendship which, it may be remembered, is national as well as official) is regarded as placing the empire now in a position in which it must be prepared to take up arms. It is perhaps fortunate that the great strike now prevailing in Russia prevents the newspapers of St.

Russia prevents the newspapers of St. Petersburg from appearing, as their comment on the ultimatum would certainly not conduce to peace.

The council of ministers held a four hours' session today and considered the amazing thunderbolt from Vienna.

What decision it took is not known, and it will not be known until approved by the Czar in a further council, over which he will preside; but all available information points certainly to Russian inter-

It is understood that this will first take the form of strong representations at Vienna in Servia's favor. This may be followed by an ultimatum

with the ultimatum received at the for-eign office from Vienna was the opin-ion expressed here today by men conversant with the situation. The Austrian ultimatum, to which a reply must be returned before 6 o'clock to-morrow, contains these demands: 1. The Servian government must pub-

a political campaign against Austria. Servia must suppress the activities of Slavic agents in Boania and Herze-govina, who are working for the detach-ment of territory from Austria. Radicals and members of the military party are crying for war, but coole heads are anxious for peace.

Servin Stands Alone. Not only has Austria the advantage in strength, but her policy has the support of Germany and Italy. On the other hand, Servia would stand practically alone, with the possible exception that Montenegro, the tinlest kingdom in Eu-rope, might send her aid.

Berlin, July 24.-Germany will take no steps to prevent war between Austria and Servia. Announcement to this ef-fect was made today in a note issued by the foreign office. The German govern ment is displeased because Austria sent an ultimatum to Servia without first con-sulting Emperor William. The newspapers take the most serious view of the Austro-Servian situation. Many believe war inevitable. The note issued from the German government follows:

"Austria having drafted a note to Ser-"Austria having drafted a note to Seri via without consulting Germany, this
o government will do everything possible
to localize the strife, should war follow,
but will not interfere until so other
power intervenes; and then it will only
fulfill its duty to its citizens and will be
the wormed by its treaties."
Emperor William, who is in Norway,
has been apprised of the seriousness of
the situation and is prepared to return the situation and is prepared to return

immediately to Berlin. As Germany is the strongest member of the triple alliance, it was naturally regarded as a matter of course that Austria would make known its intentions to Germany.

Dispatches received tonight from Vienna describe the Austrian capital as seething with indignation against Germany. The impression is said to have taken root that the sharp Austrian note was composed in Berlin and practically imposed upon Viennese authorities by Ger-many. Popular disapproval of this alleged German intervention was manifested tonight by an angry demonstra-tion in front of the offices of Die Zeit, a Vienna newspaper reputedly allied with the German Embassy, and the police

YOUR BLOOD

is the canal of life but it becomes a sewer if clogged up. All life consists of building up and tearing down and just in the same manner that the blood carries to the various parts of the body the food that the cells need for building up, so it is compelled to carry away the waste material that's torn down. These waste materials are polyonous and destroy us unless the liver and kidneys are stimulated into refreshed and vigorous life. DR. PIERCE'S Golden Medical Discovery

is the balancing power—a vitalizing power. It acts on the stomach and organs of digestion and nutrition—on the purifying filters which clean the blood. Thus fresh vitalized blood feeds the nerves, heart—and brain. This well known alterative relieves catarrh of the stomach and headaches accompanying same, and has been successful for more than a generation as a tonic and body-builder. It builds up the rundown system. You need it—if you are always "catching cold"—or have catarrh of the nose and throat. The active medicinal principles of American-Native-roots are extracted without alcohol and you can obtain this tonic in liquid or tablet form at any dry store or send 50 cents in 1-cent stamps for trial box of tablets.

COLONEL TOLLS

York Means He's Coming

By FRANCIS B. GESSNER.

New York, July 24.-The Republican minority doing business at Washington under conditions of stress temperature and hope of redress once they are returned to power will be interested to learn of the long conference between the Hon. Frank Woods, chairman of the Re-publican Congressional Committee, and the Hon. James B. Reynolds, secretary This conference may have been planned or it may have been accidental, but it happened on the Congressional Limited coming from Washington to New York. and this five hours' run gave ample time

a Republican House for the last half of his term. Rather, the careful once sug-gested that it might be best to come very close to it and let the First Citizen of the republic have a slender majority in Con

to be really interesting.
Chairman Woods and Secretary Reynolds took diverging paths after reaching New York, but there was nothing left to discuss.

Both the Congressional chairman and the national secretary had much of the unexpected coming to them, however, after they reached Gotham town, and
